FROM: Personnel Director  
SUBJECT: Hazardous Pay Plan Committee

Present indications are that the Congress will entertain proposals by the Administration that Hazardous Duty will be recognized in the Government pay structure. In order to present a concrete plan to the Director for his approval, it is requested that you serve as a member of a committee to study and recommend the proposals necessary to insure that sufficient recognition is given any of our people who are carrying out a hazardous duty.

It will be appreciated if you will devote as much of your time as necessary to successful conclusion of this project.
